FOR IMMEDIATE RELEASE

D&N ELECTRIC RANKS 4TH ON GEORGIA'S MIDDLE-MARKET FAST 40

D&N Electric establishes new niche in Design/Build projects, finding a way to thrive and grow in spite of the Economy.

December 2009 – *Georgia Trend* magazine, in a joint venture with the southeast regional CPA firm of Cherry, Bekaert & Holland, LLP, released their annual listing of the forty fastest growing companies in Georgia called *Georgia's Mid-Market Fast 40*. D&N Electric was ranked 4th in the Small Mid-Market sector for companies with sales under \$60 million. Companies were selected based upon a weighted 3-year growth trend, with 75% weighted toward revenue growth and 25% weighted toward employee growth.

Like many of the *Fast 40*, D&N Electric attributes their growth to a purposeful shift toward more government work. Also key to D&N Electric's growth has been an intense focus on client/customer and supplier relationships.

"It's no accident," says Robert Starr, D&N Electric Company's Vice President & General Manager. "Five years ago we were working out of a converted house. Now, we are one of Georgia's fastest growing companies."

You can find more information about Georgia's Middle-Market Fast 40 at:
